Quick Note

Quick Note is a handy application that adds a right-click context menu to Notepad. The menu allows you to quickly copy and paste text, add new lines and symbols, and access other Notepad functions. The icon is always displayed on the far right and easy to access. When you select text with your mouse pointer, the highlighted characters appear in the Quick Note window. Click and drag to select more text, or click and highlight text to copy it to the clipboard. The menu provides additional options: * Cut (Ctrl+X) pastes text. * Copy (Ctrl+C) pastes text and makes a copy. * Select All (Ctrl+A) pastes all the text in Notepad. * Select (Ctrl+V) pastes the text selected in the current document. * Symbol Set (Shift+Ctrl+8) displays a menu of special symbols. * Search (Ctrl+F) searches for text within a file. * Folder... opens the Select Folder dialog. * Bookmark (Ctrl+T) adds the current document to the list of bookmarked documents. * Send To (Ctrl+S) opens the Select File dialog. * Find (Ctrl+F) searches for text within a file. * Quick Note has been tested in Windows XP and Windows Vista. You can update Quick Note to the latest version for free by clicking on the Get New Version button. To remove this application from your computer simply uninstall it. All the best, Alex Overview Quick Note is a handy application that adds a right-click context menu to Notepad. The menu allows you to quickly copy and paste text, add new lines and symbols, and access other Notepad functions. The icon is always displayed on the far right and easy to access. When you select text with your mouse pointer, the highlighted characters appear in the Quick Note window. Click and drag to select more text, or click and highlight text to copy it to the clipboard. The menu provides additional options: * Cut (Ctrl+X) pastes text. * Copy (Ctrl+C) pastes text and makes a copy. * Select All (Ctrl+A) pastes all the text in Notepad. * Select (Ctrl+V) pastes the text selected in the current document. * Symbol Set (Shift+Ctrl+8) displays a menu of special symbols. * Search (

What's New in the?

Quick Note makes it easy to quickly write notes, create reminders, pin them to your Start screen or the Start menu, and export notes as text or screenshot. Screenshots: 1 Quicks Note By Epic Games Description Quick Note is a Metro application you can use to quickly leave yourself notes in a clean and elegant environment, whether you have a meeting, party or other event to attend, or want to go grocery shopping, organize your chores, create a to-do list, and write comments. Built-in spellchecker, tags, search, and pins The notes tool has a built-in spellchecker to rapidly correct typos, as well as support for tags that you can use to identify notes using the search charm. Also, the notes that stand out that can be pinned to your Start Screen or Menu. Metro notes taker for mobile, touch-supported devices The app can be installed via the Windows Store on Windows 8, 8.1 and 10 systems, ideally mobile devices with touch support, so you can write and view notes when you're on the move. An Internet connection isn't required for Quick Note to run with all its features enabled, since information is stored locally and cannot be synced across multiple devices using a Microsoft account. Create, edit, pin and delete notes To add a new note, right-click somewhere on the window, click "New Note" from the lower-right corner, type or paste text, add one or more tags, as well as select a background color. There are only seven color options available, though. It's possible to add as many notes as you want, edit content, delete one or more selected notes at once, and separately pin notes to your Start Screen or Menu. Import and export all notes Furthermore, you can export the database to file to later import it into Quick Note (from the settings area), right-click a word underlined by the spellchecker to view a context menu with suggestions, add new words to the dictionary or ignore the occurrence. Search a note by content or tags As previously mentioned, the search charm can be used to swiftly locate notes whose tags or descriptions match the text you enter. Worth noting is that you can clip web content as a note if you're using an Internet Explorer browser (including Microsoft Edge), while the note contents can be shared as text or screenshot using an external Modern UI app. Compatibility issues with Windows 10 Unfortunately, the note color wasn't displayed on the Start Menu on Windows 10 in our tests, so multiple pinned notes were indistinguishable as far as color was concerned. Also, although it's possible to pin notes to the home screen as reminders, Quick Note doesn't

System Requirements:

Supported Operating Systems: Minimum System Requirements Supported Operating Systems: Windows Vista Windows 7 Windows 8 Windows 10 Graphics: DirectX 9.0 compatible graphics card DirectX 9.0 compatible graphics card CPU: Intel Pentium 4 2.4 GHz or higher (2.66 GHz or higher recommended) Intel Pentium 4 2.4 GHz or higher (2.66 GHz or higher recommended) Hard Drive: 5 GB of free hard drive space (10 GB recommended) 5 GB of free hard drive space (10
